

Resell GlobalSign SSL Certificates

Your customers are buying SSL Certificates.

Make sure they buy them from you.

GlobalSign has been working with SSL resellers for years to develop the best SSL products and to offer the best tools to help you sell them. The GlobalSign SSL Reseller Program is designed for Web Hosts, ISPs, domain registrars, web designers, integrators and VARs who want to integrate SSL Certificates into their own product range and maximize the SSL reseller opportunity.

The SSL Opportunity

Many hosting companies usually find they already host anything from 10 to 10,000 SSL Certificates. Unless these certificates are bought directly from the hosting companies themselves, it is lost potential revenue. Hosting companies who offer SSL Certificates in their hosting packages or as a value add option gain the immediate benefits of increased revenues and a more complete and "sticky" product portfolio.

Partner Comments

Verio - Kiyoshi Maeda, President and CEO

GlobalSign brings 10 years of experience in the security sector... With GlobalSign, Verio will offer more options, increased security and attractive pricing to both our customers and our partners.

Webfusion - Thomas Vollrath, Managing Director

We have partnered with GlobalSign to offer the most feature packed and cost effective SSL security options to our customers. Given how security conscious online shoppers have become, businesses must now provide the reassurance that helps convert visitors into paying customers.

Networking4all B.V. - Paul van Brouwershaven

"As a leading supplier of SSL Certificates in the Benelux countries Networking4all wants to be able to offer customers a comprehensive range of strong and fully featured SSL certificates. Supplying the GlobalSign SSL certificate range enables us to do exactly this, providing an all round enhanced customer experience."

The group that acquired GlobalSign in 2006 have managed many thousands of SSL resellers all over the world for many years and is an expert in training, supporting and helping SSL resellers make the most from the SSL opportunity. GlobalSign provides partners with the brand, product, management platform, integration, sales assistance and technical support to maximise your sales or help you differentiate hosting product portfolios.

About GlobalSign:

Established in 1996 and a WebTrust accredited public certificate authority, GlobalSign offers publicly trusted SSL, including EV SSL Certificates, S/MIME and Code Signing Certificates for use on all platforms including mobile devices. Its Trusted Root solution uses the widely distributed GlobalSign Root CA certificates to provide immediate PKI trust for Microsoft CA and enterprise CAs, eliminating the costs associated with using untrusted Root Certificates. Its partnership with Adobe to provide Certified Document Services (CDS) enables secure digitally signed PDF e-documents. These core Digital Certificate solutions allow its thousands of customers to conduct secure online transactions and data transfer, distribute tamper-proof code, and bind identities to client certificates for email security and remote two factor authentication. The company has a history of innovation within the online security market and has offices in the US, UK, Belgium, Japan, and China.
